Reservation of special appointments for persons with special qualifications.

120. Mr. K. M. Ibrahim.—Will the Government state whether they have reserved special appointments to School Finals, Intermediates, Bachelors of Arts, Masters of Arts, Ph. Ds., Bachelors and Masters of Law, etc., etc., as they have reserved the post of Sub-Assistant Surgeons to L. M. Ps?

Rama Varmha Tampuran.—In the clerical establishment certain posts are generally filled up only with graduates. In the other classes of appointments also, special qualifications are prescribed according to the duties and responsibilities of the various posts.

Mr. K. M. Ibrahim.—On a point of order, Sir. Last time a definite undertaking was made by the Government that questions that are closely connected will not be split up. There was a very definite question preceding this question of mine and there was an inter-relation between these two questions. I asked the question about the reservation of some particular post for persons with some particular qualification and with reference to that question I was asking question No. 120. That question has not been answered while an answer is given to this question.

Rama Varmha Tampuran.—This question does not refer to that question.

Mr. K. M. Ibrahim.—It was on a parallel to that question that this question was asked.

Rama Varmha Tampuran.—This question does not touch that question.

Mr. K. M. Ibrahim.—Actually a portion has been taken off from this question.

Mr. C. J. Mathew.—It is not true, Sir. No portion has been taken off.

President.—It would be better if in future the Hon'ble Member when he wants certain connected questions to be answered on a particular day would write to the Secretary about it when questions are sent. Some Hon'ble Members are doing that.

Mr. K. M. Ibrahim.—Sir, questions which closely follow are presumed to be inter-related. A portion of this question has been left off.

Mr. C. J. Mathew,—Sir, I take serious exception to this statement. So far as I am aware of, not a single word has been deleted from his original question. I have sent for the office file to verify whether there is any substance at all in the Hon'ble Member's allegation.

President.—Then question No. 120 may stand to be answered later.
